

PORTFOLIO PLUS LOAN FACILITY

Every home owner wants to be able to pay off their home loan sooner. Besides paying more than the monthly repayment, what options are available for Borrowers to help them pay off mortgage debt faster? The Portfolio Plus Loan Facility is designed to enable Borrowers to obtain a lower home loan rate, *through a customer loyatly rebate*, by consolidating their owner occupied home loan and investment loan(s) under the Portfolio Plus Loan Facility.

The facility can then provide broad rate efficiencies to be achieved across both owner occupied and investment securities which has the capability to allow Borrowers the ability to pay off their own home loan sooner. This program does not require properties to be cross collateralised which means that Borrowers can change the makeup of the facility dependent upon their circumstances.

PORTFOLIO PLUS LOAN FACILITY

Product Description

The Portfolio Plus Loan Facility allows borrowers to obtain a lower home loan rate, through a customer loyatly rebate, by consolidating their owner occupied home loan and investment loan(s) under the Portfolio Plus Loan Facility.

The facility provides broad rate efficiencies to be achieved across both owner occupied and investment securities which has the capability to allow borrowers the ability to pay off their own home loan sooner.

This program does not require properties to be cross collateralised which means that borrowers can change the makeup of the facility dependent upon their circumstances.

Who gets the most benefit?

- People who want to own their own home sooner
- People who have one or more investment properties as part of their net worth strategy
- People who have greater than 10% equity in their properties

What are the key benefits for Borrowers?

- Borrowers can own their own home sooner through the customer loyalty rebate, multiple offset accounts and salary crediting.
- Borrowers cab establish an Offset account for each investment loan and have the benefit applied to their home loan.
- Borrowers have the convenience of keeping their transactions in separate sub-accounts for budgeting and taxation purposes.
- Borrowers have the flexibility of naming their loan and offset accounts via the internet.
- Borrowers can change the make up of their Portfolio Plus facility by adding or subtracting investment securities however a new loyalty rebate will be determined on each occasion and is subject to the lenders prevailing credit criteria.

Example Total Portfolio \$1,350,000 Plus Facility Owner Occupied \$425,000 Home Loan Loan sub account(s) Primary & additional loan splits Loan sub account(s) **Visa Debit Card** Offset sub account(s) For Investment Loan(s) Investment Loan \$375,000 No.1* Offset sub account(s) Primary & additional loan splits Investment Loan \$550,000 No.2* Offset sub account(s)

Primary & additional loan splits

*The Portfolio Plus Loan Facility's standard variable interest rate is 2.99%. In the example above, the effective variable interest rate applicable to the Owner Occupied home loan, after the customer loyalty rebate, would be 0.75% with a saving of approximately \$11,050 in the first year. For illustrative purposes only.
