2

Tap the **Start New VOI** on the right corner to start building out a report.

Upload a headshot of your customer looking directly into the camera and press **Save And Continue**.

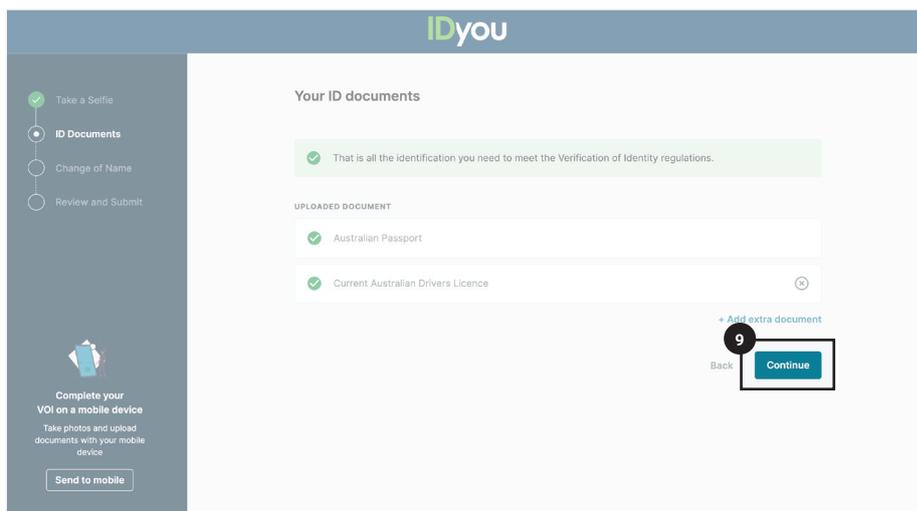

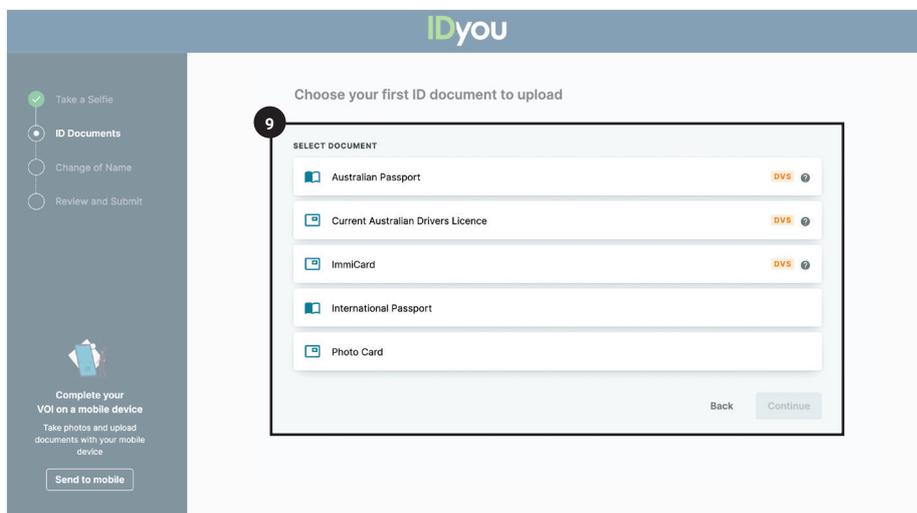

9

Upload your customer's identification such as an Australian Passport, Australian Drivers Licence or Proof Of Age Card. Once the documents have been added, press **Continue**.

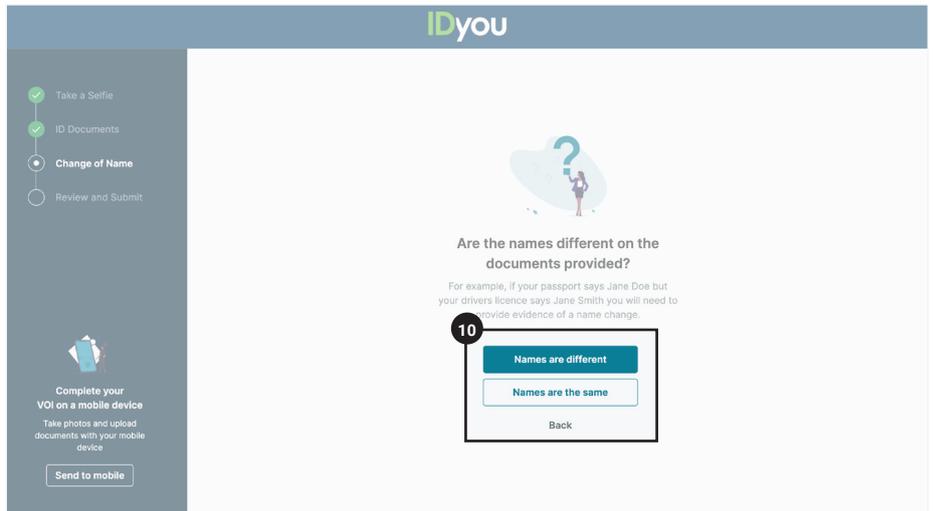

NOTE:

IDyou now uses Optical Character Recognition technology, which automatically populates fields using data extracted from your customer's supplied ID.

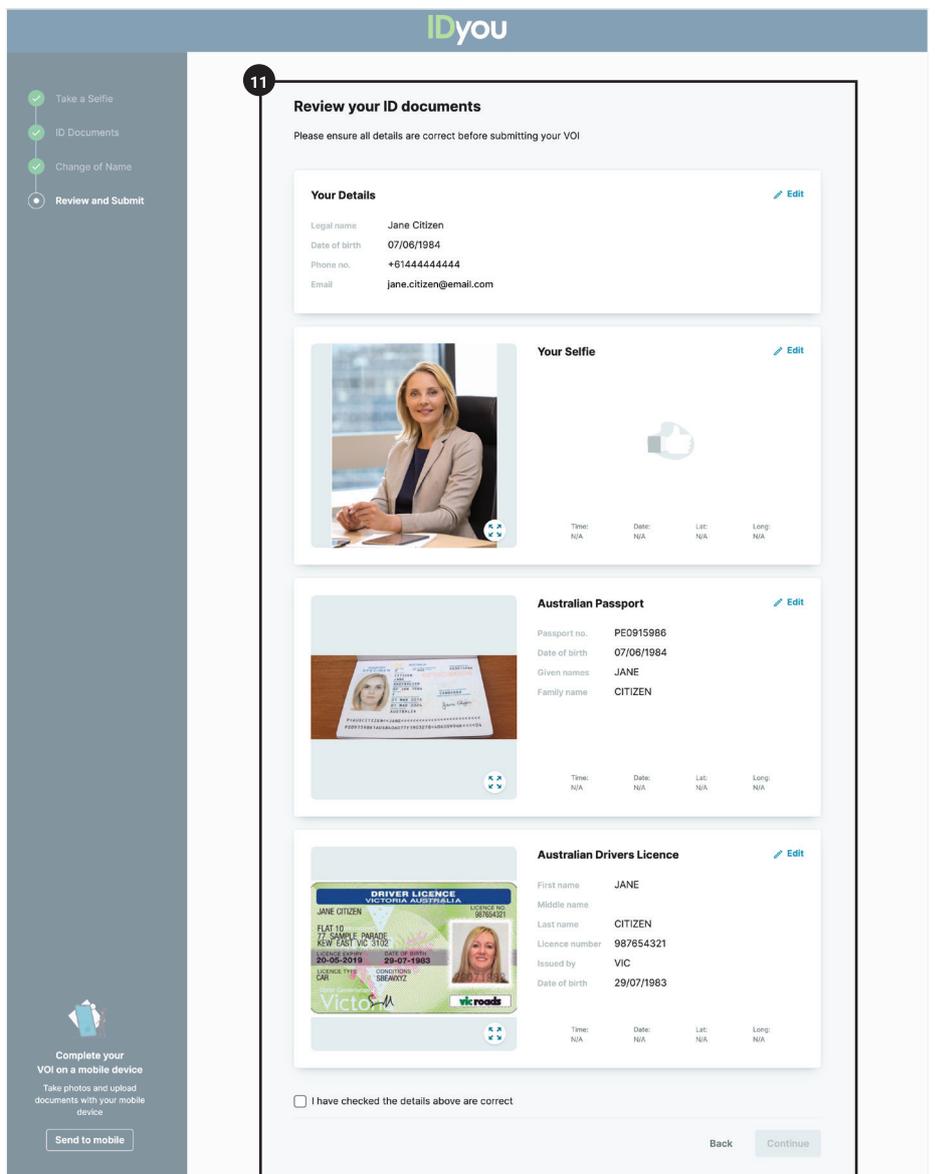

10

If your customer has changed their name; upload their change of name documentation or Australian Marriage Certificate. If they haven't press, **Names Are The Same** within the prompt, then **Continue**.

11

Review all of the uploaded documentation and tick the box at the bottom of the screen, followed by **Continue**.
